

## **LIFE River Kongeaa, Better Bird LIFE and LIFE Wadden Sea Birds networking for best practices in restoring and managing habitats for coastal and meadow birds.**

The LIFE Wadden Sea Birds had the opportunity to participate and contribute to a one-day workshop 30<sup>th</sup> April 2025. The workshop was arranged by LIFE River Kongeaa with focus on designations, status and research on birds in the Wadden Sea area.

The program featured informative presentations by experts and professionals from The Institute for Ecoscience, Aarhus University, Amphi Consult, The Agency for Green Land Management and Aquatic Environment and of the representatives from the LIFE River Kongeaa partners themselves. Further the project managers from Better Bird LIFE and LIFE Wadden Sea Birds were presenting experiences from their project sites concerning best practices in restoring and managing bird habitats within their Nature 2000 project sites.

A visit to the island of Mandø also gave the opportunity to experience and discuss existing management measures to improve birdlife on site.

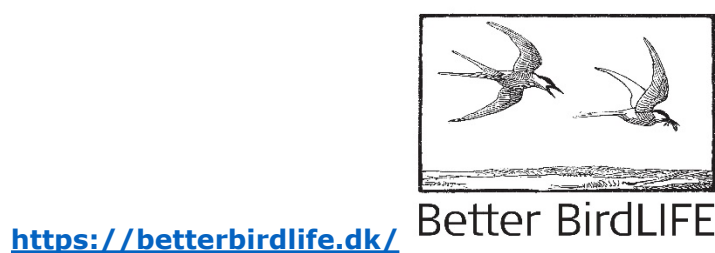

Thanks to the partners in LIFE River Kongeaa project for arranging this very nice workshop.

All in all, it was an excellent day with good professional exchanges and not least new networks for future collaborations and knowledge scaring.
